RE: Regarding Strategic Plan Update for Year 1 (2015)

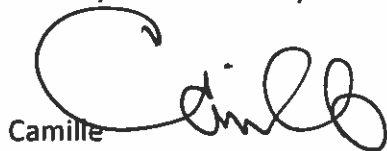

Draft 1

Hello all. I am writing to give you an update on the completion of Year 1 of the RCS Strategic Plan. So many of you gave valuable input into the development of the plan in 2014 as you participated in one or all three all staff meetings in July and December. As a result of your input we developed a plan for 2015 – 2017. Most of you are familiar with the plan as we shared it with all staff when it was completed and submitted to COA as part of our accreditation process.

It has been an amazing year with many accomplishments across the agency. Leadership wanted to document all of the accomplishments that directly relate to our 9 Goals and Objectives in the Strategic Plan and share them with all of you. Because of the nature of our work, and the fact that goals are accomplished everyday with our clients, staff and programs, there is no way to list every accomplishment. It is our hope that as you review this Plan you will find yourself and your work reflected in the many accomplishments listed.

You all did a great job of identifying the areas of focus for the agency and we want to emphasize that these accomplishments could not have been achieved without your hard work and dedication. We have asked your supervisors to go over this document with you so that you can see how your input has been incorporated into the agencies growth and success.

Thank you for all that you do! 

Camille
